MBBS Capital 9% Fixed Rate Gold

MBBS Capital is part of the mybestbuysavings Group, a company established in 2013. Trust, Heritage, Integrity is their moto having delivered 100% of promised returns to their customer for over a decade.

| TRUST | HERITAGE | INTEGRITY |

The ultimate aim is to provide a transparent, secure and well-structured product.

MBBS Capital
9% Fixed Rate Gold Bond

MBBS Capital offers access to both private and institutional savers looking for fixed rate returns and have a lower appetite for risk than some other investment products.

With minimum opening balances of £10,000 on the capital growth 1 year option, MBBS Capital offers these products that satisfy both shorter term savers and those looking for bank beating rates.

To aid our international expat customers, we allow multiple currencies; Sterling, Euro and US Dollar.

MBBS Capital is able to offer the returns shown through the process of gold streaming. As the following illustration shows, gold streaming is a known process both

The MBBS Capital Gold Bond
How you get the returns...

Gold streaming and how it works and mitigates risk

Unrefined gold miner bars (doré) are purchased at a pre-agreed price from the mines. The refined gold (99.99%) price is then pre-arranged with the buyer.

Gold doré insured and shipped to refinery.

Gold doré is refined and certified to 99.99% 24 carat gold.

Gold is then sold to purchaser as per agreed price at the beginning of the process.

logistically and financially, therefore it is not associating itself with the risk commonly linked to the gold market.

The only caveat is that savers must stay invested for the entire term of the Bond. The Bonds are available to be opened at any time throughout the year and have June and October maturity dates. Those saving for longer than 12 months will indeed attract a higher return, based on the total time in the Bond. In essence, the Bond returns 0.75% per month (9% p.a.).

The ultimate aim is therefore to provide a transparent, secure and well-structured savings product for savers wishing to seek higher interest rates on their savings than in the banks, without taking the risks associated with the global stock markets.

The Process

This process typically happens over 30 days and throughout the term of the Bond.

The risk is mitigated by the purchase and sales price being agreed prior to each transaction.

The sale of the end product minus the cost of the purchase, the insurance, the shipping and the refining gives the growth.

The Bond Manager and the associated parties know their fees and are able to calculate the returns they can pay the Bond Holders.

MBBS Capital uses Bullion Bridge as the Bond's Investment Operator (IO). Bullion Bridge have a 100% track record of delivering the promised returns, Bullion Bridge are responsible for the entire gold-streaming process. Bullion Bridge uses fully regulated companies collect clients' money for total peace of mind. Every maturity has been paid out 100% of the amount due, which has led to us being awarded an 'excellent star rating' on Trustpilot.

Maturity

Upon maturity you have 4 options:

- Take the full amount payable.
- Rollover the maturity into the next Bond.
- Take the interest and rollover the capital into next bond.
- Rollover the maturity proceeds and add more money.

How to apply

MBBS Capital's savings products are available directly through our in-house brokerage: mybestbuysavings.com, networks, brokers and authorised financial advisers.

Please read the Term Sheet for more details.

The MBBS Capital Gold Bond enables the client to

benefit from:

- Gross interest payments
- Fixed returns and terms
- No hidden fees or charges
- Globally available/portable product
- No set up or exit fees
- Various currencies
- Fully regulated companies to collect clients' money

The Structure

MBBS Capital Gold Bond owns the clients and the Assets Under Management Value (AUM).

Bullion Bridge Limited in the UK, Africa and Dubai are the advisers, buyers and sellers used by MBBS Capital for gold trades.

MBBS Capital uses fully regulated companies to collect clients' money for total peace of mind, and release funds for approved trades advised by Bullion Bridge; UK Trustees oversee the Bonds ensuring best practice.

> MBBS Capital is able to offer the returns shown through the process of gold streaming.

October 2027	9% - Award Winning	Available	Open
April 2028	9% - Award Winning	Available	Open

All tranches are ceilinged dependent on capital raise because MBBS Capital's Investment Operator (Bullion Bridge) buys Gold Dore (raw gold) exclusively from Artisanal/local run mines. This is a mandate set out from the beginning that they will not support the huge corporates; therefore, we have to limit the amount of client subscriptions to this figure to ensure we do not over fund the ability to buy gold from these smaller, locally supported mines.
